-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1761

The 112 second paragraph rejection of claim 16 is hereby withdrawn.

Claims 1-2,5-6,8-9,12 are rejected under 35 U.S.C. 102(b) as being anticipated by Murphy et al (5403610).

Murphy et al disclose a composition comprising wheat protein. The protein is present in amount of at least .1 parts per 100 parts of flour. When the protein is present in an aqueous dispersion that is added to a flour or batter formulation, the protein in the dispersion amount to .1-8 parts per 100 parts of flour. The composition is added to dough or batter to make reduce-fat or fat free baked goods such as doughnuts, cakes, cookies etc... The wheat protein can be wheat protein isolate. (see col. 1 lines 45-62, col. 3 lines 32-36, col. 5 lines 15-26 and col. 7 lines 17-23)

Murphy et al disclose the composition and the food product as claimed. The amount of wheat protein isolate is in the range claimed.

Claims 3-4,7,10-11,13-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Murphy et al.

The teaching of Murphy et al is described above.

Murphy et al do not disclose the food product is a fried food, the fried food is a cake donut and cooking by contacting with oil or fat.

Murphy et al disclose the baked goods include donut; thus, it would have been obvious to make cake donut because that is a known type of donut. It would also have been obvious to fry the food when it is a donut because donut is conventionally cooked by frying. It would also have been obvious to fry the food depending on the type of product and the taste and texture desired. Both frying and baking are well known in the

Art Unit: 1761

art; the selection of baking or frying would have been an obvious matter of choice based on the type of product made and the texture/taste desired.

Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
